Curricular Practical Training Information and Application

Preconditions	▪ Student must have been lawfully enrolled on a full-time basis for one full academic year before being eligible for CPT. Exception exists for graduate students whose programs require immediate curricular training. Available only while student is in F-1 status, before completion of the educational objective. Students in English language training programs are ineligible for CPT.
Location	▪ Students may engage in CPT only for the specific employer, location, and period approved and recorded by the International Office.
Duration	▪ CPT employment authorization reflects the dates of enrollment in internship credit. Employment may be granted beginning two weeks prior to the start date of the internship credit course and extend two weeks after the end date, but only with a letter from the advisor stating the student will be receiving a grade for work done during that time period. This letter must reflect the start and end dates dictated by the employer. CPT may be granted by the International Office in increments of no more than one year, or until expected date of employment completion, whichever is shorter. No cumulative maximum, except that it can only be approved before completion of the academic objective.
Hours per week	▪ Can be approved for part-time (20 hours or less) or full time (over 20 hours).
Field/level of work	▪ Must be an integral part of an established curriculum, and be related to the student's major field of study.
Offer of employment	▪ Must have an offer of employment from an employer offering work that qualifies as curricular practical training.
Effect on other work	▪ Use of full-time CPT for one year or more eliminates eligibility for Optional Practical Training. Use of part-time CPT does not affect eligibility for Optional Practical Training.
Approval process	▪ International Office must update SEVIS with CPT authorization. The International Office will also print out updated Form I-20 reflecting the CPT authorization. Student cannot begin CPT until CPT Employment Start Date recorded on the student's CPT I-20. The student will need this when completing Form 109 for the employer. Government approval is not required, and no work permit card is issued.
Miscellaneous	▪ Must continue to maintain a full course of study in F-1 status during the period of employment.
